**Discover
New Horizons,
Work with
Best Mind**

We are **makers, crafters, creators, designers, developers, testers**, marketers and engineers - inspired by transforming clients' businesses through digital. Our teams apply research and inspire. We design, blueprint, build and test. And at the heart of everything we do is our endless desire to provide better customer experiences. It fuels our creativity. It's how we solve business problems. It's the reason we love rolling up our sleeves and getting down to work and it's why we're so successful. Our roots are digital, our passion is contagious and our people are simply the best.

Sound like fun? Join the family.

We're looking for people to join the team who are as excited as we are to help build the platform that empowers the future generation business to be successful online.

Looking for perks? We've got you covered.

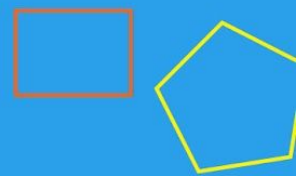

We take care of our employees in more ways than one. Our competitive benefits package includes premium medical coverage. We also offer paid parental leave, paid medical leave and more. At the office, we provide weekly sessions, three months in once a movie, and yearly outdoor trips. And so many snacks.

Work-Life Balance

We believe that quality time outside the office is vital to our employees' satisfaction at work. That's why our flexible work schedule encourages team members to take time off so they can come back refreshed.

Stay Informed

We're dedicated to ensuring all employees have the information they need to do their jobs well. Our monthly All Hands meetings, email newsletters, and weekly team sessions are just a few of the programs we run to bring all together and share key aspects of the business across the entire organization.

We Value Our People

We're serious about sharing our successes. All employees receive an equity package in the company as part of their total compensation, and we match up to Employees' State Insurance (abbreviated as ESI) is a self-financing social security and health insurance scheme and Provident Fund schemes for our workers.

LiveltUp

One benefit of having amazing co-workers is enjoying each other's company, and we make up some good excuses to have fun together. Hitasoftware's weekly catered happy hours are a great way to connect with coworkers and unwind after the (long) week. During the winter of every year, we throw organization trips and our holiday parties have been known to get fancy.
